## **UPDATE: ON-LINE TRACKING IS NOW AVAILABLE!**

To Our Valued Customers:

We believe it's no longer enough to simply get your deliveries from here to there. Gaining visibility to the delivery process, from entering orders, to tracking your package to its final destination, is a service our valued customers deserve. Therefore, we have employed additional state-of-the-art courier technology to provide you this heightened level of service and satisfaction. Through the Internet you can now enter your orders, and access real-time tracking information on all of your job requests. This means quick and easy order entry, and electronic delivery updates.

And no more time tied up on the phone! Our online electronic order system provides a powerful means to gain visibility to all of your existing orders, virtually eliminating the need for multiple phone calls and faxes. This will save you valuable time in your day, speed your order entry process, and ensure you are informed in the delivery every step of the way.

We are pleased to offer you this heightened level of service; we are committed to continually evaluating new ways to enhance our service offerings in the future. Please contact Christy Williams at [christyw@jetdeliverysystems.com](mailto:christyw@jetdeliverysystems.com) or Vicki Williams at [vickiw@jetdeliverysystems.com](mailto:vickiw@jetdeliverysystems.com). We will provide you with a convenient password and login for you to use to gain access to our system and your account.

Sincerely,

**Vicki Williams**
